SUMMARY

I am an enthusiastic and hardworking undergraduate following a BSc (Hons) in Information Technology, specializing in IT at SLIIT University. I have a strong foundation in programming and application development, with hands-on experience in Java, Python, C++, Kotlin, and full-stack web technologies such as HTML, CSS, JavaScript, and the MERN stack. I'm also skilled in Android app development using Android SDK. Eager to gain real-world industry exposure through an internship, I am committed to applying my skills in a dynamic team environment while continuously learning and growing as a developer.

PROJECTS

Online Examination Management System 2024

- Developed a secure web platform for educational institutions to create and manage online exams, automating scheduling, student registration, and result processing to improve efficiency.
- Technologies Used: HTML, CSS, Java

"WesternBliss" Event management System For Wedding (Services Part) 2025

- Created a web application to help couples and wedding planners organize wedding events smoothly. The system manages vendors, services, bookings, and schedules, making wedding planning easier and more efficient.
- Technologies Used: React.js, Node.js, Express.js, MongoDB, CSS

To -Do List Web App 2025

- A simple and user-friendly To-Do List web app to organize daily tasks efficiently. Users can add, edit, and delete tasks while tracking their progress in real time. Designed with a clean, responsive interface to boost productivity and time management.
- Technologies Used: React.js, Node.js, Express.js, MongoDB, CSS

"HungerRush" Food Delivery Mobile App (UI Designing) 2025

- Designed an intuitive and visually appealing mobile user interface for a food delivery app, focusing on enhancing user experience and easy navigation across the ordering process. The design supports key features like browsing restaurants, managing carts, tracking orders, and user authentication.
- Technologies Used: Figma, Kotlin, Android SDK, XML

"Prime Budget" Finance Tracker Mobile App 2025

- Designed and developed a mobile application that allows users to manage their personal finances by tracking income, expenses, savings, and budget goals. The app helps users stay financially organized with clear visual insights.
- Technologies Used: Figma, Kotlin, Android SDK, XML

EDUCATION

GCE O/L

2019

Defence Services College, Colombo 02

- Successfully Completed

GCE A/L, Commerce Stream

2023

Defence Services College, Colombo 02

- Successfully Completed

KEY SKILLS

- **Programming:** Java, Python, C++, Kotlin
- **Web/Mobile:** HTML, CSS, JavaScript, MERN, Android SDK
- **Databases:** MySQL, MongoDB
- **Dev Tools:** Git/Github, VS Code, Eclipse, Figma
- **Soft Skills:** Teamwork, Time Management, Project Management, Discipline
- **Languages:** Sinhala (Fluent), English (Intermediate), Tamil (basic)
